

Compliance Finance

Bringing Compliance to life: modern, interaktiv & praxisnah!

Why have we updated the training package?

- Existing content has been continuously updated. However, we have modernised the subject matter in terms of methodology and didactics to create an even more interactive learning experience.
- Focus on learning commitment, clear learning objectives and transfer-oriented design.
- We have updated customer and business scenarios so that learners can practice compliance behaviour in real-life situations.
- Several modules have been technically revised to reflect legal and regulatory changes.

Who is the training package intended for?

- Finance staff – for a solid understanding of compliance
- New employees & career changers – for a quick, modern start
- Experienced employees – as a compact refresher course covering current legislative changes

What exactly can learners expect?

- Transfer-oriented learning design, practical tasks, learning journey with storytelling and real-life decision-making situations
- Updated scenarios based on current customer cases, policies and regulatory requirements
- High interactivity: videos, gamification elements, quizzes
- Clear learning objectives: provide structure, orientation and focus
- Knowledge checks and tests for measurable career and learning progress
- Modern implementation with an intuitive, mobile-responsive learning setup

Have we spark your interest?

Your goals in sight

The Compliance Finance training package uses modern teaching methods and practical scenarios to make compliance applicable, and its motivational learning design encourages learners to stick with it.

No more boring E-Learnings!
